

## Black Neon

Tiger Army

It's gonna be long day tomorrow, but not as long as the night  
When you can't sleep and one thought pervades your mind  
If love is what makes life worth living, what happens when your  
love has gone  
In a loveless world can you go on

Black neon glows in my mind  
The only thing that's darker than night  
Black neon lights my way to nowhere  
Black neon glows in my mind  
Like staring at the sun then closing your eyes  
Black neon lights my way to nowhere

Motels where some kicks await – a ride to the other side  
Lone wolf clubs that can strip away your soul  
I just want something but there's no kind of thrill  
Nothing here but just more time to kill

Black neon glows in my mind  
The only thing that's darker than night  
Black neon lights my way to nowhere  
Black neon glows in my mind  
Like staring at the sun then closing your eyes  
Black neon lights my way to nowhere

Black neon glows in my mind  
The only thing that's darker than night  
Black neon lights my way to nowhere  
Black neon glows in my mind  
Like staring at the sun then closing your eyes  
Black neon lights my way to nowhere
