

I prowl the streets, the city's mine  
The summer night sidewalk winds  
I follow it, I'm brought to you  
Below your window, my heart whispers

Whoa, whoa  
Like a dream into your room  
Whoa, whoa  
Like a dream into...

Here we are both in the dark  
To be with you I waited so long  
You turn through a restless dream  
Awaken to eternal sleep  
Let's go!

Whoa, whoa  
Like a dream into your room  
Whoa, whoa  
Like a dream into...

The night belongs to me  
And the breath you spoke those words with  
Belongs to me
