

The Past Will Always Be

Tiger Army

I drive a lonely highway
Lookin' to get away
And I'm haunted (I'm haunted)
We drove this road together
Now I wish that I'd done better
I'm haunted (I'm haunted)

Now I know... that what I needed
Yes I know... I must concede it
I need your love

Past rusting neon signs
And dreams from another time
I'm haunted (I'm haunted)
When we looked at the stars
Before it all fell apart
I'm haunted (I'm haunted)

Now I know... that what I needed
Yes I know... I must concede it
I need your love
I need your love

Why can't we go back to the way
That everything used to be
'Cause I'm haunted (I'm haunted)
Our love is still here in me
And the past will always be
I'm haunted (I'm haunted)

Now I know... that what I needed
Yes I know... I must concede it
I need your love
