

World Without the Moon

Tiger Army

Don't want to live in a world without the moon
You know I couldn't make it through
The night she needs it to go... go with the stars
Just like I need you

They laugh and say I shouldn't sing about the moon
That I have so many times before
That I was a fool to have fallen so hard for you
But like the moon, my love's forevermore
forevermore

Don't want to live in a world without the moon
You know I'd never be untrue
We go together like the moon and the stars
I don't want to live without you

They laugh and say I shouldn't sing about the moon
That I have so many times before
That I was a fool to have fallen so hard for you
But like the moon, my love's forevermore
forevermore

They laugh and say I shouldn't sing about the moon
That I have so many times before
That I was a fool to have fallen so hard for you
But like the moon, my love's forevermore

Don't want to live in a world
without the moon
You know I'd never be untrue
We go together like the moon and the stars
I don't want to live without you
Don't want to live without you
