

Room with a view

Tiger Lou

I'd like a room with a view
Helena Bonham-Carter
and Julian Sands too

I'm tired of this house
and the people who live here
I pack my bags and decided
there's nothing to fear

But this is the last year
And this is the first try
And this is the last year
And this is the last goodbye
And this is the last year of you and me

And i'd like a room with a view
I'd like a room with a view
I'd like a room with a view
As long as it's not on you

I'm thinking mexico or new zealand
It's not the place it's the distance
that makes the call
And i'm leaving a week from friday
And this is all i have to say
I'll see you some time

But this is the last year
And this is the first try
And this is the last year
And this is the last goodbye
And this is the last year of you and me

And i'd like a room with a view
I'd like a room with a view
I'd like a room with a view
as long as it's not on you
