

Fall in Love Again

Tigertailz

I hear you talking to me on the telephone
You light up my life as I stand alone
Your voice so gentle as you whisper words to me
I feel so far away, I'm waiting patiently

I never felt this way before
For someone, no
You got me begging, I want more
Than before

When I see you I'm gonna fall in love again
Emotion holds me as I fall in love again
Try to help myself, oh, baby, let me in
I'm so helpless, oh, as I fall in love again
Oh-whoa...
I tried to tell you how I feel about ya, babe
I think you know how much I care
'Cause I'm your slave
Tomorrow's dreams are fading
One thing's on my mind
I need some lovin', honey

Don't leave me on the line, no

I never felt this way before
For someone, no
You got me begging, I want more
Than before

When I see you I'm gonna fall in love again
Emotion holds me as I fall in love again
Try to help myself, oh, baby, let me in
I'm so helpless, oh, as I fall in love again
Oh-whoa...

When I see you I'm gonna fall in love again
Emotion holds me as I fall in love again
Try to help myself, oh, baby, let me in
I'm so helpless, oh, as I fall in love again

When I see you I'm gonna fall in love again
Emotion holds me, oh, as I fall in love again
