

Star Attraction

Tigertailz

She's comin' back
My baby, she is outta sight
She's looking good
Too bad I never got it right
Don't wanna push too hard cos I can't see straight
My money honey's here and I just can't wait
Seen your eyes they cannot tell me, no
Just how much of a deadly game you play
No no no no I can't wait
Try to hide my inner emotions but she's got me comin'
I'm on her plate
She's my star attraction
Can't leave my seat
My legs won't help me

I drank too much and now it is getting late
No no no no it's too late
Go for broke my mouth's wide open
Can't help myself I gotta move in
In for the kill
She's my star attraction
And I want some of her action
Star star star star attraction
And I want some of her action now
Lights, camera, let's see some action now

She's my star attraction
And I want some back seat action
Star star star star attraction
And I want some back seat action now
