

Move On

Tigirlily Gold

Uh
Patience
Has never been my virtue
And small talk
Ain't somethin' that I'm into
You can ask me to dance
But I won't dance around it, no
I need you to take me
Somewhere not so crowded

I think it's time we move on to a slow song
Drop a needle down (Drop a needle down)
Go 'round and 'round
Gettin' dizzy thinkin' about you, kiss me
There's one thing on my mind (One thing on my mind)
So why you wastin' time?
I'm talkin' bottle of wine on the house
Your hands all over me on the couch
Say the word and we'll leave
Already been waitin' too long (Too long)
For you to make a move on, move on me

Listen
I ain't sayin'
I don't wanna get to know ya (I don't wanna get to know ya)
But those green-apple eyes
Make it hard for me to focus (Hard for me to focus)
I let you buy me one more
But I don't really want it, no (No)
Yeah, it's almost last call
So maybe we should call it, hey

I think it's time we move on to a slow song
Drop a needle down (Drop a needle down)
Go 'round and 'round
Gettin' dizzy thinkin' about you, kiss me
There's one thing on my mind (One thing on my mind)
So why you wastin' time?
I'm talkin' bottle of wine on the house
Your hands all over me on the couch
Say the word and we'll leave
Already been waitin' too long (Too long)
For you to make a move on, move on me

Hey, move on me

Hold me close, cross that line
Take me home, don't take all night
We still got time

To move on to a slow song
Drop a needle down
Go 'round and 'round ('Round and 'round)
Gettin' dizzy, boy, shut up and kiss me (Kiss me)
There's one thing on my mind
So why you wastin' my time?
I'm talkin' bottle of wine on the house

Your hands all over me on the couch
Say the word and we'll leave (Word and we'll leave)
Already been waitin' too long (Too long)
For you to make a move on, move on me

Hey, move on me

Move on, move on me
Uh
