

Political War

Political war

Political war

I remember when I was younger
The politicians come to my valley
They wanted my parents to vote for them
And my daddy said 'no, no I don't want to vote for them'

Political war
Political war
Political war
Political war

And all the hopes and promises
For better life and education, good roads, security
Didn't come my way, sounds so far away
And all the governments and ministers
Presidents and many wives, colleges and everybody rollin' out
Didn't come my way, they're far away

Political war
Political war
Political war
Political war

I remember when I was younger
My daddy disappeared from his friends and family
He was taken to fight a political War
And now the sacrifice for the political War

~~~♪♪♪~~~

And I remember what did they say in Nigeria  
And I remember what did they say in Liberia  
I don't want to see my people dying for political war  
I don't want to see that again, see that again, to see that  
Why would I see my people dying for political war  
Why would I see that again, see that again, see that
