

## Angels Never Call

'Til Tuesday

I used to watch her sleep an angel on vacation  
I fell in love so deep far too far to mention  
She looked just like a thousand stars  
When they came out at night  
But when I looked inside her heart  
I found it locked up tight

Oh angels never help you  
'Cause angels always fall

She smoked a cigarette  
It only blurred my vision  
I couldn't help but stay  
With my first impression  
I'm wondering with every breath  
What caused my fall from grace  
I guess I beat myself to death  
Against her lovely face

Oh angels never help you  
'Cause angels always fall

And angels (it's simply that I never knew her)  
Sometimes kiss you (wish to God that I had known)  
Oh but angels (but everything that I remember)  
Never call (is gone)

Oh angels (it's simply that I never knew her)  
Never help you (wish to God that I had known)  
Cause angels (but everything that I remember)  
Always fall (is gone)

And angels (it's simply that I never knew her)  
Sometimes kiss you (wish to God that I had known)  
Oh but angels (but everything that I remember)  
Never call (is gone)

I used to watch her sleep - an angel on vacation
