Imagination

Tilian

She told me use your imagination, baby
Fight the temptation maybe
Cool your frustration we should take it slowly
Do yourself a favor, focus your behavior
If we're gonna make it, we should take it slowly

Fire, fire
She lit my sovereignty on fire
Body so elegant it's not fair
Take half of everything I don't care
Been three weeks, want to make you my "Mrs."
Best moves only get me your kisses
You, you and you if had three wishes

Don't tell me use your imagination baby
Fight the temptation maybe
Cool your frustration, we should take it slowly
Do yourself a favor, focus your behavior
If we're gonna make it, we should take it slowly

I, I want to know
How I can move you, move your soul
I, I want to know
How I can make you lose control

Use your imagination
Fight the temptation
Cool your frustration, we should take it slowly
Do yourself a favor, focus your behavior
If we're gonna make it, we should take it slowly

I want to know
How I can move you, move your soul (Use your imagination)
I want to know
How I can make you lose control (Use your imagination)
