

# True

Tilian

I will never forget you, even if I wanted to  
Lavender sticks in my mind  
We never really had a clue what the hell we were gonna do  
I just wish we had a little bit more time

And it's true, I'm in love with you  
And it's true, so far gone, in love with you

I was lost before I met you  
Little a sentimental fool  
Writing my woes into lines  
Now whenever I look at you, there's no way I'm gonna keep my cool  
More lost now than ever before in your eyes

And it's true, I'm in love with you  
And it's true, so far gone, in love with you

And it's true, I'm in love with you
