

# Out Cold

Tim Atlas

Tell me what the sky looks like  
When it's not raining outside  
Color is a privilege  
Most of us see black and white  
Wonder how much of me's left  
Cause all I hear is you  
In my head

No  
Why did you go  
Off with someone new  
Yeah, I emptied all my pockets  
And it wasn't enough for you

She left me in the dust  
Now I can never trust no one  
Every time I try I get so  
Anxious, anxious  
I just wanna run  
But I'm already out of breath  
I'm out cold baby  
I'm out cold

Tell me what the sky look like  
When there's no smoke in my eyes  
California wildfires  
Saved my lungs from heaving sighs

No  
Why did you go  
Off with someone new  
Yeah, I emptied all my pockets  
And it wasn't enough for you

She left me in the dust  
Now I can never trust no one  
Every time I try I get so  
Anxious, anxious  
I just wanna run  
But I'm already out of breath  
I'm out cold baby  
I'm out cold
