

Wallflower

Tim Atlas

Respect your grind
Working that night, that night, that night-shift
Wallflower type
Electric slide just so you know I exist

Let's move
Till light is shining
Peaking through the room
No rules
I can't shut my eyes
My eyes when I'm with you

Just gimme, gimme, gimme
One more chance
I'm living, living, living
For a dance
Just gimme, gimme, gimme
One more chance
With you, with you

Tell me what you like
I know I'm usually not your type
Better check the signs, I'm outta line?
But the vibe just feels so nice with you

So let's move
Till light is shining
Peaking through the room
No rules
I can't shut my eyes
My eyes when I'm with you

Just gimme, gimme, gimme
One more chance
I'm living, living, living
For a dance
Just gimme, gimme, gimme
One more chance
With you, with you

Tell me what you like
I know I'm usually not your type
Better check the signs, I'm outta line?
But the vibe just feels so nice with you
