

Stone In Love

Tim Buckley

Just like the sun chase the moon around
Just like the fox, he chase the rabbit down
Well, I've been wantin' you woman
But it ain't no habit

No don't you come too near me
'Cause I'm a liable to grab it
'Cause I'm a stone in love
I can almost taste it, I can almost taste it

Lord, I'm a and I was born not to waste it
Born not to waste it Lord
Oh, now baby, I got midnight fever
You're young enough to catch me

And you're old enough to tease me
When we start shakin', down to the bone
I get so crazy, I can't leave you alone
Oh, now woman a we're gonna roll you

We're gonna' shake it on down to the bone
We're gonna party, honey
All night long
'Til the folks next door move back to Cocomo
