

Going Going Gone

Tim Finn

We're going through darkness
Then we're back in the light once again
And we're holding a secret
It's beyond and behind everything
I'm free to walk this Earth
But if I'm not with her

The days are too long
When I'm with you I feel strong
Even when the darkness falls we're moving on

And all I live for
Is the taste of the truth that you bring
And we're chasing a daylight
That I see in your eyes is a dream
No, I can't make it through
My life without you

The days are too long
When I'm with you I feel strong
Even when the darkness falls we're moving on

And we're going through tunnels
And we're going past cities
I don't know where that smile comes from
But all I know
Is that we're going going gone
Going going gone
Going going gone

And the days are too long
When I'm with you I feel strong
Even when the darkness falls we're moving on

Without you I can't start
I don't know where I belong
Without you there's no song in my heart
Going going gone
Going going gone
Going going gone
Going going gone
