

Innocence Back

Tim Finn

Goodbye to all that came before
We've fallen from the greatest height
Thought I could melt the sand to glass
But now I lie awake at night
Avoiding invitations
With you I found a new sensation
I could pat the sun away

And I want that innocence back
Can't get that innocence back
And I want that innocence back
Can you get that innocence back?

Goodbye to pride before a fall
'Cause now I've seen the real me
Staring back in cold mirror light
My empty heart beats senselessly
You always wanted it your way
Oh my heart, come out to play
When I saw you I surrendered to the moment

And I want that innocence back
Can't get that innocence back
And I want that innocence back
Can you get that innocence back?

You always wanted it your way
Oh my heart, come out to play
When I saw you I surrendered to the moment
And I want that innocence back

And I want that innocence back
Can't get that innocence back
And I want that innocence back
Can you get that innocence back?
And I want that innocence back
Can't get that innocence back
And I want that innocence back
Can you get that innocence back?
