

Keep Talking

Tim Finn

Maybe if I keep you talking
You can face another day
Fighting of your isolation
I'll hang on every word you say

Cos words are precious they bring us together
Restore our faith in things that otherwise fail
It might get ugly before it gets easy
But your human heart will be better for it

Keep talking
I'm listening
Keep talking
Come what may
We're gonna
Send a message
To each other
Keep talking
Send some pearls
My way

I'm ready for your untold story
Or your confusion and regret
It's just a little conversation
But I know it's not over yet

Words are precious they bring us together
Restore our faith in things that otherwise fail
It might get ugly before it gets easy
But your human heart will prevail

Keep talking
I'm listening
Keep talking
Come what may
We're gonna
Send a message
To each other
Keep talking
And send some pearls
My way

Don't hang up if you feel the connection
All we got is each other tonight
We can talk until you feel better
I'll be there where you do watch that sunrise

Keep talking
I'm listening
Keep talking
Come what may
We're gonna
Send a message
To each other
Keep talking
And send some pearls
My way

Keep talking
I'm listening
