

They Won't Let My Girlfriend Talk To Me

Tim Finn

I can't sleep at night
Keep seeing men all dressed in white
They won't let my girlfriend talk to me

I say "what's going on, you're just showing off"
Say "i'm cracking down are you cracking up"
And she opened the lid to this lunacy
And they locked her up and threw away the key
In the name of modern medicine stay with me

Chorus:

There's nothing wrong with her
That a dose of me won't cure
They won't let my girlfriend talk to me
