

# This Moment

Tim Finn

There'll always be this moment  
There'll always be this waltz  
There'll always be this moment

Tonight your face hide in my hands  
Tonight your eyes don't have other plans  
There'll always be this moment

There'll always be this moment  
There'll always be this waltz

Tonight your skin burns through my heart  
Tonight we take each other right apart  
There'll always be this moment

This isn't dancing  
Hold me tight  
Tonight I'm not dreaming  
And I can't let you out of my sight

There'll always be this moment  
There'll always be this waltz  
There'll always be this moment

Tonight your face hide in my hands  
Tonight your eyes don't have other plans  
There'll always be this moment  
This moment...  
This moment...
