Twinkle

Tim Finn

Now the skies of the city are unclean
And there ain't no stars out to be seen
All that luster must've lost its glow
Down here

You fly? into space
There's no time to waste
You're the twinkle in the sky

There's a full moon hidden in your eyes
And it takes me to the other side
Where the light man plays upon the hill
I found my thrill

You fly? into space
There's no time to waste
You're the twinkle in the sky

You're full of surprises
Oh I can't describe it
You're the twinkle in the sky

The light that shines from you
The light that ?
The light that dims the sun
There's a light for everyone

You fly into space
It's nobody's place
You're the twinkle in the sky

You're full of surprises
And I can't describe it
You're the twinkle in the sky

You're the twinkle in the sky...
