

# It'll Never Happen Again

Tim Hardin

I remember our first affair  
All the pain, always rain around my eyes  
It'll never happen again; it'll never happen again

Every time I leave you alone  
I remember the time I couldn't come home  
It'll never happen again; it'll never happen again

Why can't you be the way I want you to be?  
Why can't you see you've got to change to love me?

I remember our first affair  
All the pain, always rain around my eyes  
It'll never happen again; it'll never happen again
