

Southern Butterfly

Tim Hardin

Well, I walk in life alone
Sun and bread
Hopefully here, all our hearts are blessed

Texas wheel
A woman sworn a man
Here I've tried
Here I've tried to be the best

So hot is fine and real to me
I stay awake all night
Asking you silence sympathy

I know something new
Southern butterfly you
I know something new
Southern butterfly you

Texas wheel
A woman sworn a man
Here I've tried
Yeah, I've tried to be the best

So hot is fine and real, real to me
I stay awake all night
Asking you silence sympathy

I know something new
Southern butterfly you
I know something new
Southern butterfly you

Our childhood has been left
Patiently
Painfully dying in me
