

## While You're On Your Way

Tim Hardin

Making love has been as much as I could hope it would be  
Every night has been like one night to me

You've got me feeling again  
The feeling you gave me before  
But to you those nights like any other night  
Is just one more

Don't try to tell me that you care enough to love me  
When you can't even do the things I need you to do

Don't make me listen to words you think will please me  
When pleasing me don't mean anything to you

Just one more night makes no difference  
As long as there's another night  
To make right what you did wrong  
The last days we had of one another will have to do  
While you're on your way, while you're on your way  
How did the feeling feel for you?
