

# Floatin'

Tim Hicks

That's right

Weather man over on the radio dial  
Says it's a great day to be outside  
We got blue skies all day long  
Better get out in it before it's gone  
My baby's got a two piece string bikini  
She's itchin' to wear it, I'm itchin' to see it

Gonna tie her pink inner-tube to mine  
Cooler on the rope not far behind just...

Floatin', floatin'  
Down the river's where we're goin', goin'  
The way the breeze is blowin', blowin'  
Yeah, might take us to the ocean but that's alright  
That's the thing about summer  
Got nothin' but time  
Corona in a bottle with a slice of lime  
Just floatin', floatin'  
Oh yeah

Couple beers later we're in the zone  
Girls all smellin' like Coppertone  
Take another koozie cold sip  
Steal another kiss from sunburnt lips

Everybody makin' like bobbers  
Chillin' like villains, in the water just

Floatin', floatin'  
Down the river's where we're goin', goin'  
The way the breeze is blowin', blowin'  
Yeah, might take us to the ocean but that's alright  
That's the thing about summer  
Got nothin' but time  
Corona in a bottle with a slice of lime  
Just floatin', floatin'  
Oh yeah

Wouldn't wanna be anywhere else  
Like the last beer, when the ice melts  
Just...

Floatin', floatin'  
Down the river's where we're goin', goin'  
The way the breeze is blowin', blowin'  
Yeah, might take us to the ocean but that's alright  
That's the thing about summer  
Got nothin' but time  
Corona in a bottle with a slice of lime  
Just floatin', floatin'  
Oh yeah

In the sun just soakin', soakin',  
Somebody pass me that lotion, lotion  
Getcha higher than tokin', tokin'

Nah I ain't jokin'  
It's all about the motion  
We're just floatin'
