

Quits

Tim Hicks

Two kids and a dream in a rusty Silverado
Seventeen, burnt CD, like a movie soundtrack
Been Key West low, been high as Colorado
Yeah, I see it all girl when I look back

We called it crazy
We called it long shot
Called it losing sleep, tangled sheets, and baby don't stop
We called it easy
We called it hard rain
Called it top shelf, and go to hell, and pictures in a frame
Called it every name and every name fits
We called it everything but quits
We called it everything but quits

They said we'd burn up fast like the gas in that old Chevy
We let the bird fly in that summer sky, and peeled off down the road
Life came rushin' at us, and maybe we weren't ready
But we've always been on fire girl, just never up in smoke

We called it crazy
We called it long shot
Called it losing sleep, tangled sheets, and baby don't stop
We called it easy
We called it hard rain
Called it top shelf, and go to hell, and pictures in a frame
Called it every name and every name fits
We called it everything but quits
Yeah-yeah

Oh, sometimes we get the thorns
Sometimes we get the rose
But you never turned me loose
And I never let you go

We called it crazy
Called it long shot
Called it losing sleep, tangled sheets, baby don't stop
Called it easy
We called it hard rain
Called it top shelf, and go to hell, and pictures in a frame
Called it every name and every name fits
Oh when you love like that, you get a love like this
We called it everything but quits
We called it everything but quits

Two kids and a dream in a rusty Silverado
I see it all girl when I look back
