

## Slide Over

Tim Hicks

Hey baby where you wanna go tonight  
I'll take you down any road you like  
I'll turn whatever on the radio dial  
Or turn me on with a pretty little smile  
Hey baby where you wanna go tonight

Tonight, I need to get you closer, slide over  
And ride with your head right on my shoulder, slide over  
There's too much, 'tween us, where you're sittin' ain't near enough  
Tonight, I need to get you closer, slide over  
Slide over

The way you're lookin' makes it hard to stay this far  
What you say me and you light up that dark  
Yeah, we can pop it into four wheel drive  
We can take it off road for awhile  
I know a place we can see a million stars

Tonight, I need to get you closer, slide over  
And ride with your head right on my shoulder, slide over  
There's too much, 'tween us, where you're sittin' ain't near enough  
Tonight, I need to get you closer, slide over  
Slide over

Leave the world in the rear view  
Nothin' in the middle of me and you

Tonight, I need to get you closer  
And ride with your head right on my shoulder

Tonight, I need to get you closer, slide over  
And ride with your head right on my shoulder, slide over  
There's too much, 'tween us, where you're sittin' ain't near enough  
Tonight, I need to get you closer, slide over  
Slide over

There's too much, 'tween us, where you're sittin' ain't near enough  
Tonight, I need to get you closer, slide over
