

Too Fast

Tim Hicks

Goin' for speed
Baby you and me
A little gasoline
Burnin' wild and free
My dash, your feet on it
Broken white line moon shinin' on it
There's a blacktop with our names on it
Gonna roll on it all night long

Start the engine, fire it up
Lose ourselves in a cloud of dust
Find a goodtime, turn it up
Chase it down with a little love, yeah
Kickin' this thing into drive
We're in for one hell of a ride
Cause baby when you're looking like that
Ain't no thing as too fast

Yeah, it feels so good
Heatin' up that hood
Knowing that we would
Park it like we should
Windshield's got steam on it
Kissin' my neck lipstick on it
Rockin' your body my hands on it
Two hearts racin' all night long

Start the engine, fire it up
Lose ourselves in a cloud of dust
Find a goodtime, turn it up
Chase it down with a little love, yeah
Kickin' this thing into drive
We're in for one hell of a ride
Cause baby when you're looking like that
Ain't no thing as too fast
Ain't no thing as too fast

My dash, your feet on it
Blacktop with our names on it
Gonna roll on it all night long

Start the engine, fire it up
Lose ourselves in a cloud of dust
Find a goodtime, turn it up
Chase it down with a little love
Kickin' this thing into drive
We're in for one hell of a ride
Cause baby when you're looking like that
Ain't no thing as too fast

My dash, your feet on it
Broken white line moon shinin' on it (ain't no thing as too fast)
Blacktop with our names on it
Ain't no thing as too fast
Windshield's got steam on it
Kissin' my neck lipstick on it (one hell of a ride, now honey)
Rockin' your body my hands on it

Ain't no thing as too fast
