

Only the Brave

Tim Hughes

This is the moment
This is why I'm living
To face the giants with You
It's now or never
And though my heart is racing
I'll leave my armor with You

Your love makes us stronger
Your love sees us through

Only the brave will go where You go
Into the fire but never alone
We know You'll always carry us home
Only the brave will go where You go

It's all or nothing
These scars will tell a story
Of how Your power broke through
In every battle
Our God is never shaken
Our hope will always be You

Your love makes us stronger
Your love sees us through
Your love is forever
I'm Yours, I'm with You

Only the brave will go where You go
Into the fire but never alone
We know You'll always carry us home
Only the brave will go where You go

We're gonna go where You go
We're gonna go where You go
We're gonna go where You go

Only the brave will go where You go
Into the fire but never alone
We know You'll always carry us home
Only the brave
Only the brave will go where You go
Into the fire but never alone
We know You'll always carry us home
Only the brave will go where You go
We're gonna go where You go
We're gonna go where You go
We're gonna go where You go
