## Ain't That Just Like a Dream

**Tim McGraw** 

I popped the clutch on that old red Ford Her daddy would holler and run to the door Dust would fly as we flew down That old gravel driveway And lookin' back I can't believe He let her run with a boy like me He said "You better get her b ack by ten or there'll be hell to pay" I can still feel her lips on mine It's all so real But lost in time

Ain't that just like a dream Runnin' wild and runnin' free We were rebels chasin' time against the wind Sometimes I long for just one night Of the way I felt back then But ain't that just like a dream It always ends

Saturday nights we could all be found Radios up and our windows rolled down Hearts on fire and holdin' hands Sights set on forever We never thought those days would end We'd never be the same again Summer would be the last time we would ever be together I never knew I'd wake up some day In a brand new world so far away

Ain't that just like a dream Runnin' wild and runnin' free We were rebels chasin' time against the wind Sometimes I long for just one night Of the way I felt back then But ain't that just like a dream It always ends

Sometimes I long for just one night Of the way I felt back then But ain't that just like a dream It always ends

Ain't that just like a dream It always ends
