

## Comin Home

Tim McGraw

Say goodbye to old man winter  
Say hello to sweet springtime  
Cause I'm comin' out of hiding I'm gonna get it right this time  
After so long being frozen it took awhile to thaw me out  
I spent too long not knowing what love's supposed to be about  
Now I'm finding out

It's a lot like coming home from a long time walking out in the snow  
Then I looked at you and knew I never knew nothin' and it broke this heart of stone  
It's a lot like comin' home

Like a boat out on the harbor that's been battered by the sea  
I've been through some stormy weather but you shine alight for me  
Girl you set me free

Girl I looked at you and knew I never knew nothin' and it broke this heart of stone  
It's a lot like comin' home

Comin' home  
Feels like I'm comin' home
