One Of These Days

Tim McGraw

```
C                    Bsus
We used to chase that boy home from school
Am                        Am/G
called him freckled faced, red headed fool
F                F/E                  F  G
he was different, he wasn't cool like me
C                    Bsus
sticks and stones did'nt break any bones
Am                           Am/G
but we never let well enough alone
F                F/E                  F  G
and one day he ran away from home yousee
Am                   F
and I passed him as he walked away
Am                        G
and in his eyes I heard him say

C            G              F
One of these days your gonna love me
F                            G
you'll sit down by yourself and think
C            G              F
about the times you pushed and shoved me
F                            G
and what good friends we might have been
Am                F
then your gonna sigh a little
Am               F
and maybe even cry a little but
F                            C
one of these days you're gonna love me

C                Bsus
Patty Sue was a small town beauty
Am                        Am/G
I took one look and had to pull her to me
F                        F/E
lord knows she should've seen right through me
F                      G
when I promised her the world
C                        Bsus
but at seventeen you only want one thing
Am                        Am/G
I left her standing with my high school ring
F                      F/E
innocent tears in the pourin rain as I walked
G       Am                      F
away ,   and I still see her in my dreams
Am                   G
and to this day she's whispering

C            G              F
One of these days your gonna love me
F                            G
You'll sit down by yourself and think
C            G              F
about the time you turned from me
```

```
F                                        G
and what good friends we might have been
Am               F
then your gonna sigh a little
Am               F
and maybe even cry a little but
F                               C
one of these days you're gonna love me

      Am
Now everybody stands up
      F
the congregation sings
   C
a song of sweet forgiveness
      F          G
and as the chorus rings
      Am
the wind blows clear my memories
      F
the pages start to turn
      C
and suddenly I'm singing
      F          G
the moment that I learned

C           G               F
One of these days I'm gonna love me
F                           G
and feel the joy of sweet release
C           G               F
one of these days I'll rise above me
F                           G
and at last I'll find some peace
Am               F
then I'm gonna smile a little
Am               F
and maybe even laugh a little but
F                       C
one of these days I'm gonna love me

C  Bsus  Am  Am/G  F  F/E  F  G
```
