

## Circles Around You

Tim O'Brien

There in the paper as plain as day I saw  
Your face was smilin' and lookin' my way it said  
You beat the odds in some game  
Five thousand dollars and fame  
I thought how you looked the same

Can't lose the sight of you, can't lose the sound, it's just  
Like some bad penny that keeps comin' around, I think  
We've been three years now apart  
I've tried to make a new start  
But you keep tuggin' my heart

R:

I'm runnin' in circles around you  
I just can't let go of the past  
I'm wrappin' my world all around you  
Don't know if I'll ever let go  
I'm wrappin' my dreams all around you  
I need you much more than you know

What fills the hours, what fills your days are you  
Lost here like I am just makin' your way down some  
Street in this cold lonely town  
Too proud to turn us around  
Or is there some new one you've found

R:
