

# My Life

Timati (Тимати)

Blackstar, Matisse, Sadko, let's go

All I wanna do is have a good time  
Party the night away and live my life  
All I wanna do is have a good time  
Party the night away and live my life

We came here to drink, drink all our pain away  
I'm celebrating a birthday here today  
Get on the floor, girl, shake your ass now  
I like the way that you move and how you get me down  
Is that your girl? Is that your man?  
Get her on the wall and grab her ass  
Put your hands up high and touch the sky  
Just live for the moment like you're gonna die

All I wanna do is have a good time  
Party the night away and live my life  
All I wanna do is have a good time  
Party the night away and live my life  
All I wanna do is have a good time  
Party the night away and live my life  
All I wanna do is have a good time  
Party the night away and live my life

I'm living my life, I'm partying  
I think I see my new wife. I'm tripping, man  
The liquor in me ain't got me seeing couples  
She got a big ol' booty, I'm trying to pack that baggle  
'Cause the lady's so fly, so fly, uh  
Tryin' to make what it ain't my girl  
'Cause the lady so fly, so fly, uh  
Break it out from this world  
'Cause yes I can hit on my own  
But tonight I promise I'm not leaving alone

If you wanna play  
Hands up, hands up, put your fucking hands up  
Hands up, hands up, put your fucking hands up  
Take your feet off the ground  
Take your feet off the ground  
Take your feet off the ground  
Yeah, don't fuck it up, let's go  
Hands up, hands up, put your fucking hands up  
Hands up, hands up, put your fucking hands up  
Take your feet off the ground  
Take your feet off the ground  
Take your feet off the ground  
Yeah, don't fuck it up, now

Blackstar, Matisse, Sadko, let's go

All I wanna do is have a good time  
Party the night away and live my life  
All I wanna do is have a good time  
Party the night away and live my life  
Live my life, live my life, live my life, live my life

Live my life, live my life, live my life, live my life
