

# Harmony

Timbaland

(Together now)  
(Together, together)  
(Together now)

We were born to fly, limitless  
No matter what, we stay up  
If we're a team that lives enough  
No boundaries (no), we're fearless (no)  
Where we go one, we go all  
We never break, we never fall

In this world that we created  
Magic's all around  
We can fly above the ground

Hey yeah, we should come together  
Let's be heroes in the night (In the night, in the night)  
Like spotlights beaming in the black sky  
We could lift the darkness with our light

'Cause everybody says harmony (right now, right now) (All together now)  
Harmony (right now, right now) (All together now)  
Harmony (right now, right now) (Together now)  
'Cause everybody says harmony (right now, right now) (All together now)  
Harmony (right now, right now) (All together now)  
Harmony (right now, right now) (Together now)

Whenever chaos gets too crazy  
And trouble knocks at the door  
Pick your heart up off the floor  
And keep shining, yeah keep trying  
If something's strong, go be strong  
Push your fears until they're gone

In this world that we created  
Magic's all around  
We can fly above the ground

Hey yeah, we should come together  
Let's be heroes in the night (In the night)  
Like spotlights beaming in the black sky  
We could lift the darkness with our light

'Cause everybody says harmony (right now, right now) (All together now)  
Harmony (right now, right now) (All together now)  
Harmony (right now, right now) (Together now)  
'Cause everybody says harmony (right now, right now) (All together now)  
Harmony (right now, right now) (All together now)  
Harmony (right now, right now) (Together now)

Hey yeah, we should come together  
Let's be heroes in the night (In the night)  
Like spotlights beaming in the black sky  
We could lift the darkness with our light

'Cause everybody says harmony (right now, right now) (All together now)  
Harmony (right now, right now) (All together now)

Harmony (right now, right now) (Together now)  
'Cause everybody says harmony (right now, right now) (All together now)  
Harmony (right now, right now) (All together now)  
Harmony (right now, right now) (Together now)

(All together)  
(Harmony)  
(We're all together)  
(In harmony)
