

## Lovage

Timber Timbre

Bewildering weather assaults and accosts  
I put the edge on I take the edge off  
And almanacs annually misjudge the frost  
I put the edge on I take the edge off  
Visions of Texas, hexes, taxes and loss  
I put the edge on I take the edge off  
Mexican Aztecs and vexations of plots  
I put the edge on I take it off

Barely held together just like everything else  
Barely held together just like everything else  
Barely held together just like everything else  
Barely held together just like everything else  
Barely held together just like everything else  
Lovage

Father's name now muddled not spoken but coughed  
I put the edge on and I take the edge off  
A baby girl called Finette and a little boy called Knox  
I put the edge on I take the edge off  
And coins called and landed before they'd been tossed  
I put the edge on I take the edge off  
Please keep just one memory that's gentle and soft  
I put the edge on I take it off

Barely held together just like everything else  
Barely held together just like everything else  
Barely held together just like everything else  
Barely held together just like everything else  
Barely held together just like everything else  
Barely held together just like everything else  
We're tied together loose like everyone else  
Tied together loose like everyone else  
Barely held together just like everyone else  
Barely held together just like everything else  
Barely held together just like everything else
