

Are We There Yet

Timeflies

Are we there yet

Our bodies burnin' like a bonfire so close I could taste it
(So close I could taste it)
And she was walking like a center fold in something high wasted
(In something high wasted)

I know that it's gonna get loose with whatever we do tonight
I'll go anywhere with you, got it feelin like a movie right
So close, no we can't hold on forever
Oh it's magic whenever we're together

Somebody tell me are we there yet
I can't help but stare at
You pullin' your hair back
I'm drivin' too fast
And I don't even care that
We've been everywhere now
We're crossing state lines
And we'll never turn back

Tell me are we there yet
Somebody tell me are we there yet
Are we there yet

Oh you know I'm down to share but I keep her to myself
I take her everywhere but we do it real stealth
You know she wear it well and she's down to show and tell
Cause if you wanna get to heaven gotta raise a little hell

I know that it's gonna get loose with whatever we do tonight
I'll go anywhere with you, got it feelin like a movie right
So close, no we can't hold on forever
Oh it's magic whenever we're together

Somebody tell me are we there yet
I can't help but stare at
You pullin' your hair back
I'm drivin' too fast
And I don't even care that
We've been everywhere now
We're crossing state lines
And we'll never turn back

Tell me are we there yet
Somebody tell me are we there yet
Are we there yet

I want to get in some trouble with you for tonight
(Trouble with you for tonight)
I don't care where we're going, you know that I'm down for the ride
(you know that I'm down for the ride)
Yeah I want to get in some trouble with you for tonight
(Trouble with you for tonight)
I don't care where we're going, ready set roll, baby
You know that I'm gon' ride

Somebody tell me are we there yet
I can't help but stare at
You pullin' your hair back
I'm drivin' too fast
And I don't even care that
We've been everywhere now
We're crossing state lines
And we'll never turn back

Tell me are we there yet
Somebody tell me are we there yet
Are we there yet
Somebody tell me are we there yet
(I want to get in some trouble with you for tonight)
Somebody tell me are we there yet
(I don't care where we're going, you know that I'm down for the ride)
Somebody tell me are we there yet
