

# Runaway

## Timeflies

Eyes closed, well I see  
Why now? Why me?  
Self doubt got me down again  
Floating like a butterfly, sting like Ali  
We plant the seeds, they be out of stock and blowing  
Cause everyone's a producer when they step into the room  
And everyone's got opinions and everybody's a critic  
And everyone tells you how it would be different if they the one's who did it  
t  
But they didn't do it, I did it, you did it, we did it  
I got the keys to the kingdom, I'll let you in for a minute  
But look, don't touch, see the writing's on the wall  
From the ones who came before, all the mighty who have fallen  
We witness like Jehovas, H to the Izzo  
Weight upon my shoulders, pain in the middle  
So I stay here, waiting for a sign  
And I hear the same voice start to echo in my mind

We could just run away, headed for the fast cars and bright light  
If you just follow me, let's explore and get lost in tonight  
Don't hesitate, I could make you feel like you're alive  
We could just run away, we could just run away

My biggest dream is my biggest fear  
And I think it's by design  
Cause if we don't succeed at what we're trying to do  
It's like we knew it would happen the whole time  
It's opposite, it's like submarines and rocket ships  
It's [?]  
My future means on top of it  
Calling down like you got this shit  
Speechless, I stay talkative  
Holding my breath for the last step  
Oh man, if I could have done it over again  
I'd do it different, I swear  
As if we all have some road to follow like it's so apparent  
I'm done caring, I want it, and if I want it, I take it  
And if I take it, I hold it forever, don't be mistaken, no  
One time, I'mma finish what I started  
I'mma show you what could happen  
I'm the apple in the garden  
I'm the knowledge so forbidden  
I'mma do now what I didn't  
When the angels get to singing, I'mma finally start to listen

We could just run away, headed for the fast cars and bright light  
If you just follow me, let's explore and get lost in tonight  
Don't hesitate, I could make you feel like you're alive  
We could just run away, we could just run away

I float in the stars now, what happens if I fall down?  
Would you catch me, would you put me back together?  
Don't you let me lose sight, what happens if it's too bright?  
Would you tell me that nothing lasts forever?

We could just run away, headed for the fast cars and bright light  
If you just follow me, let's explore and get lost in tonight

Don't hesitate, I could make you feel like you're alive  
We could just run away, we could just run away
