

Worth It

Timeflies

How can you stall?
When it's everything you dreamed
And there's so far left to run,
How can you quit?
When it's all you've ever wanted
And you don't know what's to come,
But don't you see?
This is what you've hurt for.
And this could be
All you've ever worked for.

One step down
With a million left to go (Left to go)
It's just us now
And I wanna let you know.
It was so worth it (2x)

Why do you hide?
From exactly what it is
You've been searching for all along.
Why do you wait?
'Cause you know if you don't go and get it,
You'll regret it all when it's gone.
You've tried so hard,
It's what you played this game for.
It's time you start getting what you came for.

One step down
With a million left to go (Left to go)
It's just us now
And I wanna let you know.
It was so worth it (2x)

And I wanna let you know.
It was so worth it (2x)

Sacrifice,
it wouldn't be half as nice without the strugglin' huh
So you know that that's the life.
It has got me thinkin'
O-O-O-O-O-Oh Woah (It's got me thinkin')
Paradise,
'cause you ain't gonna get it right.
See now you work all day,
And then you play all night.
Now you're singin'
O-O-O-O-O-Oh Woah (Now you're singin')

One step down (Just one)
With a million left to go (A million left to go)
It's just us now (Just us now)
And I wanna let you know.
It was so worth it
And I wanna let you know
It was so worth it
And I wanna let you know

One step down, with a million left to go.
