Heaven in Hell

Timeless Miracle

No fear at heart, We must stand our ground.
Taste the earth of our burial mound.
Our wings may, burn but we shall not die
until that day when heavens fall.

Across the bridge of death we march
Passing through the brimstone arch
Army's clad of steel and gold
The war is on we're fighting for our

Souls of heaven lost to hell
an army of the night.
Give them peace eternally
Our sword shall bring them light

Chorus:
Into darkness and evil we carry the flame
The fire's of heaven will save us from the
Lord of the underworld, bringer of lies and despair
In the halls of the fallen and sinner's we stand
As bringers of justice and truth is on our side
with the righteous one, bury the demons inside

Sound the horn we must retreat
The battle is lost it's our defeat
So many died but the war rage on
let dead be dead eternal rest

Forgive us Lord for we have failed
The gates of hell has been unveiled
Through smoke and flame his army march
The war is lost, we're fighting for our

Souls of heaven lost to hell
an army of the night.
Give them peace eternally
Our sword shall bring them light

Repeat Chorus

(Behold) gods holy angels
Crucified on the field of war
Let no man or demon judge them
Thus they gave their life for peace
…….for peace

Let the fire burn and cleanse their souls
Out of hell we rise it’s our time to rule
Let their bodies burn into ashes turn
Can’t tame my hate I kill them where they stand
….death was my gift to them

Heavens wept from a cloudless sky
Cleansed our sins so we all could die
Hate breeds hate and eternal war
Lesson taught but never learned

Legion march from the depths of hell
Soulless men they are empty shells
Slaves in life as well in death
Whips and chain to the final breath

Into the night we go…
Into the great unknown
We must follow the path forlorn
that of contempt and scorn

The kingdom of Heaven burn
but one day we shall return
And reclaim what was lost in war
Take back the throne of God

Repeat chorus
