

High

Timmy Trumpet

You see this love
That's the real shit
And no drug can match the feeling
Uh, and what a perfect day for me to find you in this purple rain
I've got Lukes force on these 808's
So we can moonwalk on a hater's face
And if the roof's on fire let it burn the club
And if God's a DJ, tell him turn it up
Cause no doubt, when the music's playing
I'm on my own cloud like a super Saiyan
I'm free as fuck
I don't need a plug
Cause when it kicks in I'm a Peking duck
We're so high, there's no sky
I can see our souls blend
And when there's no light you're so bright it's like living in a dream that
won't end

Yeah
I can feel it rising up
Can you feel it too?
And I can't get enough
It's just something you do
Heaven just opened up
It's like there's no sky
I'm so high, when I'm with you
When I'm with you
When I'm with you
It's like there's no sky
I'm so high, when I'm with you

Yo I'm gonna tell you one thing
These drugs ain't got nothing on you
It's just something you do
And I'm buzzin I love it, it's true
You're one in a million trillion
So you can tell Sean I'm fuckin with you
Sweet lord, is this legal?
You've got my body feeling pins and needles
You call me John like I'm in the beetles
I got the corn and I'm with my people
Bring the bass. Hallelujah
We can do it any way Karma Sutra
And if I was to sky dive with no parachute
Let's get it baby Jonny Utah, OOH AH!
You know they got the bourbon on the cam cord
Cause me and you are murder on the dancefloor
I can hear the DJ calling
Take to the beat and call me in the morning

I can feel it rising up
Can you feel it too?
And I can't get enough
It's just something you do
Heaven just opened up
It's like there's no sky
I'm so high, when I'm with you

When I'm with you
When I'm with you
It's like there's no sky
I'm so high, when I'm with you
