

# Satellites

Timmy Trumpet

We got a real good thing  
Not going to label it  
We always find a way of landing where we want  
Standing above the haze, the high is here to stay  
The tide ain't going to break doing what we love

Old habits die hard  
Maxing out credit cards  
Not going to roar and I'm never going to stop  
So let's have some fun  
I'm down for what you want  
'Til tomorrow we ain't coming down

Only you and me tonight following the satellites  
Hitting up all the vibes  
I never want to stop  
Only you and me tonight following the satellites  
Hitting up all the vibes  
I never want to stop

I never want to stop  
Only you and me tonight following the satellites  
Hitting up all the vibes  
I never want to stop

We're keeping up the pace  
Getting lost in space far away from everything and everyone  
The moment we collide, start hitting overdrive  
Getting messed up doing what we love

Old habits die hard  
Maxing out credit cards  
Not going to roar and I'm never going to stop  
So let's have some fun  
I'm down for what you want  
'Til tomorrow we ain't coming down

Only you and me tonight following the satellites  
Hitting up all the vibes  
I never want to stop  
Only you and me tonight following the satellites  
Hitting up all the vibes  
I never want to stop

I never want to stop  
Only you and me tonight following the satellites  
Hitting up all the vibes  
I never want to stop, no  
I never want to stop
