

I've been seeing visions taking over me
Somewhere in the distance, you're all I see
I know it's now or never, nothing to lose
Cause when we get together

Forever's gonna start tonight, yeah
Forevers gonna start tonight
No more distractions in my way
Got the frequencies tuned in to elevate
I want come down
I know it's now or never, nothing to lose
Cause when we get together

Forever's gonna start tonight, yeah
Forevers gonna start tonight
Forever's gonna start tonight, yeah
Forevers gonna start tonight

Forever's gonna start tonight, yeah
Forevers gonna start tonight
