

Get Home

Timomatic

We ain't fooling nobody
When we say we're just friends
They know better than that
So let's just live
When you're right here beside me
The who world standing still
And we're better than this
Feels like I'm

Lost when I'm without you
Your love got me so brand new
Lost in the things you do
Not sure how long it's been
Round and round we go
Forgetting all the things I know
'Cause I ain't never felt nothing like this

That makes me wanna just dance
Give a damn who's around us
No I don't ever care
What they might say when they stare
That makes me wanna just dance
With you baby till the sun's up
And if you say I can
Then I might save the last dance
For when we get home
Mmh, when we get home baby
When we get home yeah
Oh no no, mmh
Get home

I know what you want, what you want right now
Anything you need, I got it
Ooh baby you fine as hell
I don't want nobody else
Feeling like I lose my mind
When I rewind
What we did last night
Ooh baby I'm

Lost when I'm without you
Your love got me so brand new
Lost in the things you do
Not sure how long it's been
Round and round we go
Forget anything I know
'Cause I ain't never felt nothing like this

That makes me wanna just dance
Give a damn who's around us
No I don't ever care
What they might say when they stare
That makes me wanna just dance
With you baby till the sun's up
And if you say I can
Then I might save the last dance
For when we get home

Mmh, when we get home baby
When we get home yeah
Oh no no, mmh
For when we get home
