

Mash Up

Timomatic

Are you coming with me
A stranger in the dark
I know what you're missing
I knew right from the start

I see you watching me
Just keep your eyes on me
Anticipating what I'll do
Feeling your energy
When you get close to me
Girl I've been waiting just for you

'Cause tonight is the night
For you and me and you

Mash up the bliss
Mash it up
Mash up the bliss
Mash it, mash it up, mash it up
Mash up the bliss

Makes it hard to breathe
Don't drift too far baby
'Cause you make me complete

I see you watching me
Just keep your eyes on me
Anticipating what I'll do
Feeling your energy
When you get close to me
Girl I've been waiting just for you

'Cause tonight is the night
For you and me and you

Mash up the bliss
Mash it up
Mash up the bliss
Mash it, mash it up, mash it up
Mash up the bliss

I see you watching me
Mash it up
Mash up the bliss
Feeling your energy
Mash it, mash it up, mash it up
Mash up the bliss
