

# Power

Timomatic

Ooh yeah, girl  
Get up, get up, get up, get up, get up, oh no

You bring the sunlight wherever you go  
You burn like a fire out in the cold  
I know you get tired down on the low  
Feeling so alone

You've got the power  
To get up off the ground  
You've got the power  
Don't let 'em bring you down

I feel the fire  
Burning up inside of you  
I feel the fire  
I want you to know  
Yeah, yeah, yeah, yeah

You've got the power in you, oh, oh  
There's more in you, so much in you  
You've got the power in you, oh, oh  
There's more in you, so much in you

Don't need no reason to do what you love  
This is your season, you gotta trust  
Just make a decision, come what may  
Baby, I know you've got this, just believe that you

You've got the power  
To get up off the ground  
Get up, get up, get up, get up, get up, yeah  
You've got the power  
Don't let 'em bring you down  
Get up, get up, get up, get up, get up, oh no no

I feel the fire  
(I feel the fire)  
Burning up inside of you  
(It's your life, your life)  
I feel the fire  
(Oh, yeah)  
Just let it all go  
Keep doing what you're doing

You've got the power in you, oh, oh  
There's more in you, so much in you  
You've got the power in you, oh, oh  
There's more in you, so much in you, you got it  
You've got the power in you, oh, oh  
There's more in you, so much in you  
You've got the power in you, oh, oh  
There's more in you, so much in you

See me I go live life like this  
I'ma do my dance like this  
Get up, get up, get up, get up, get up, ooh yeah girl

See me I go live life like this  
I'ma do my dance like this  
Get up, get up, get up, get up, get up, oh Lord
