

R U With Me

Timomatic

Feeling like I'm going up against the world
Tell me you're with me, are you with me? Yeah
'Cause nothing really matters if you'll be my girl
Say that you're with me, are you with me? Yeah

Baby, I know you know I can't do this shit alone, eh
You're like the beat to my lyrics, baby
Girl, without you there's no soul

Every time our eyes ain't right
Girl, you're on my mind
I gotta do better
Girl, you make me better

Step in the booth, I'ma go do that
Sit out the bong, then get right back
Your game of juice, girl I need that
How can I become a king if my queen ain't there?

Feeling like I'm going up against the world
Tell me you're with me, are you with me?
'Cause nothing really matters if you'll be my girl
Say that you're with me, are you with me? Yeah

Baby, I could have the world but without you
What would it be worth? Nothing
You're the reason why [?] so hard, night and day
Day and night, it's alright
When you're by my side
Ain't no one gonna take my shine, yeah

Step in a booth, I'ma go do that
Sit out the bong, then get right back
Your game of juice, girl I need that
How can I become a king if my queen ain't there?

Feeling like I'm going up against the world
Tell me you're with me, are you with me?
'Cause nothing really matters if you'll be my girl
Say that you're with me, are you with me? Yeah

Against the world
Be my girl
