

## Signs

Timomatic

Oh, my darling  
It's been many moons since we confessed our love  
Even now I feel the same way, tell me something  
Lately you've been acting so mysterious

What I gotta do to get to know the truth  
Looking for a sign  
Show me all your colours so I know you  
Looking for a sign

Tell me where do you go  
When you close your eyes next to me  
Tell me where do you go  
Am I the only one that you see  
Tell me what your dream

What I gotta do to get to know the truth  
Looking for a sign  
Show me all your colours so I know you  
Looking for a sign
