

Howl At The Moon

Timothy Bloom

All through the night, well I need you here
Alone left this heart is ever so clear

When I howl at the moon for you
Got you, here me calling you
Howl
Don't you hear me calling at the moon for you
You
For you
Hey

Hear when I call my [?]
Moving the earth underneath your feet
I'm down on my knees
But where I wanna be
Here afar, there you have my heart

As I howl at the moon for you
Don't you here me calling at you
Oh howl
Don't you hear me calling at the moon for you
For you

Howl, howl, yeah
