Human

Timothy Bloom

Take it for what I am
I go out in the night
I'm not afraid of the dark
Take it for what I am, mmh

Take it for who I am
I [?] for you look
'Cause I'm not, I'm not afraid
Of disappointments

I am human, I am human
When the brain sees the right or wrong
I am human, I am human
Till my flesh goes back to earth
I am human, human
I am human

I am human [?] keeps a-knocking down
My own integrity of what I came to talk about
I am human when there's people calling on our prayers
And all we talk about is woes, oh
And we get caught up in so much bullshit
And we forget oh who runs all this shit
We forgot to praise, praise the Lord
We forget to be grateful for what we were given for

I am human, I am human
When the brain sees the right or wrong
I am human, I am human, no, no
I am human, no
Mmh, human

I keep coming back to where I need to be
And there's something about to keep me standin' on my feet
And so I am what I say, what I do, what I came here for, now, t
o do

I am human, I am human
When the brain sees the right or wrong
I am human, I am human, no, no
I am human, no
Mmh, human
